

URBAN&CIVIC

Investor Tour – Strategic Sites

We hold a series of investor, partner and stakeholder tours of our sites throughout the year. For example in March, organised by JPMC, we held a Cambridgeshire-focused investor tour of Waterbeach, Wintringham and Alconbury. Hosted by Nigel Hugill, David Wood, James Scott and Tim Leathes, we took representatives of EdenTree IM, CBRE Clarion, Thames River, Northwood Securities, Degroof Petercam and Premier AM around the three sites. With each site at a different stage of development we were able to highlight the activities that were being undertaken on each, from promotion to infrastructure delivery and from planning to house sales, as well as demonstrating the scale of the land holdings and their strategic locations.

“

The site visits with Urban&Civic are a great way to meet with senior management and get a deeper understanding of the scope of the opportunity and potential for future value creation for shareholders and stakeholders alike.”
